

What are we expecting?

Letzte Aktualisierung Montag, 4. Mai 2009

What are we expecting?

Coming dangers which threaten us.

The media as well as the bought over and oppressed governments consciously play down dangers that threaten us, or disseminate the information bit by bit and in small doses to us.

The bible has clearly predicted, over 2000 years ago, what will happen in the next few days and months.

Read Matthew 24 and Revelations of John.

The bible is so exact and even more precise on the future than the weather forecast can predict the weather situation.

The bible speaks of 4 riders (See Revelations 6)

The first is the white horse.

This is a picture of opinion making, manipulation, cover up and seduction

At this juncture, I can only think of the slogan, "Yes we can";

One is incapable of solving problems with refined rhetoric. This only leads to catastrophe. A well chosen rhetoric was what once brought a Hitler to power during the great depression, the time of joblessness and impoverishment of the masses here in Germany. Hitler, who then acted cool and decisively eventually landed everyone in chaos (Rev 6:2).

The second rider is "red", a picture of Communism and Socialism.

The social and economic problems will be so great that soon, a "state of emergency" will have be declared. That which the communists once forcefully attempted and were not successful at, will succeed easily at the hands of the red rider, with willingness from the people, such that the whole economy, the whole capital will be socialized and by this means, control gained over all

individuals. This is already in full swing, as he dictates the tune, who pays the piper. In other words, whoever has the money has the say.

The next rider is on a "black horse".

It is a picture of worldwide hunger. The daily news report only bit by bit, of hunger in Haiti, for example, as people roam about in the streets, torching cars and plundering stores and shops. In the next report, one then hears of hunger in Indonesia or in Guinea. But this is all too far-fetched for us, and only elicits some pity from us at most.

The idea is to evoke the belief from us, "this is purely a third world problem. They have no idea on how to handle their finances..."

But what then is now the problem with the western civilization? Do they understand how to handle their finances? Why the G-20 Summit in London and the street battles before the banks? Even the rich countries are soon to be overcome by poverty.

Almost 3 million people went on the streets protesting in France recently.

This will soon repeat itself soon in the countries of the EU, including us in Germany. Nations are preparing themselves for the worst kind of chaos.

A look through the history books show that humanity has been plagued by economic crises over and over again. It has however never been with the frequency experienced in the past 100years. We find ourselves presently in the 22nd recession since 1920. That which happened at the Asia Summit in Thailand can happen anywhere, if the social crises become worse and mass unemployment and income loss increase.

We find ourselves before a summer of discontent, with massive riots and unrests. A few days ago, thousands demonstrated in front of banking central and the Ministry of Finance in Berlin, demanding a refund of their money.

When the American city of Kansas could no longer pay its bills, we over here thought it was far away. Even when recently, California, the largest and richest state in the US defaulted continuously on its bills, we said, "California is in the US". That is not happening here in Germany.

Well, it is now happening in Schleswig & Holstein, a German state which is now at the verge of bankruptcy.

By the way, over half of the worldwide container fleet is controlled right from the Northern part of Germany. At the moment, there are about 500 container freights, about 11% of the world wide container fleet, docked at our ports at the moment, without haulage orders. This costs a lot of money on daily basis. Judgement has started for Germany, just like in the bible, “from the north” (Jeremiah 6:22)

Hunger is already a fact in 37 countries of the world and paralyses everything. Many nations are at the verge of bankruptcy eg (Iceland, Austria, Romania amongst others) and that’s already close to us here, in fact at our gates. The governments lie. They do not want us to discover that we are all dancing on a volcano. They plan to further seduce us, spending our money blindly. They throw us sugar candies and make us believe “it will all be well soon”;, to make us happy and pretend nothing went wrong. Just like during the car scrap bonus, we are all supposed to boldly buy new cars and be happy. All will be well. Unfortunately, it is all a lie. The bible warns us against this kind of make – belief and babble (Titus 1: 10 -16)

The state and banks still shamelessly went ahead, to pack the deposits of the small saver full of borrowings in order to further indebt them, and effectively burst their bubble so to speak.

The truth is: this is all about the total destruction of all their wealth and property, and many do not even notice. They run blindly onto the naked blade. People, we’re at the verge of the collapse of our currency system as well as our affluence.

For about a year now, the US, amongst others, is in search of a multibillion heavy rescue packet. Unbelievable sums, in unheard of magnitude are flowing into the rescue of banks and firms in the market, and still fulminating ineffectively. The effect is such as that of adrenalin, but with no results. We are at the verge of the greatest economic mess of all times

The US finance expert Grey Mc Coash said in February, at this year’s PADC, the largest raw materials fair in the world. “The USA is set for doom.” This is exactly what God said to me during one of my morning devotions in January. Soon, the American dream will collapse. All the governments in the west are already under obligation to create more debts in order to curtail the threatening economic crises and its consequences. Slowly but surely, most governments are becoming threatened with the inability to pay their bills.

For this reason, money is being printed like crazy, and pumped into the banks. Individuals are supposed to help the poor like never before, rather than the banks and bonze.

Recently, God showed me a picture as I was praying: Soon, we will start seeing people, beggars and protestors alike, storming the stores and robbing the people of all they have. We will see people chumming up themselves for prostitution for just a few Euros.

In the middle of Paris, I already experienced a situation where poor begging children stole our sandwiches right from our plates in a street restaurant, ran off to a corner, and consumed them very hungrily. This, my friend is going to become a normal, a perfectly normal condition around us. Whatever thing you bought for your family will no longer be brought home with the assurance of safety. Hungry people may rob you of them on your way home.

Some of my American friends wrote me from the rich America only to say things like “I have lost everything; home, job, furniture, family, in fact, everything. The only thing I have left is my old, worthless car which the bank was reluctant to take from me. I do not even have the money to keep it on the road. It is parked at a lot, and serves as my home for now. I am not employed. I just live from temporary jobs where I earn a few dollars to survive.

This kind of story is not uncommon.

Just a few years previously, these same people had sent gifts and arms to help the 3rd world, only for them to end up poor, and in need of charity themselves. They had led very normal lives 6 months ago; had their own houses, with garden, car and a regular income. Now, they have nothing left. They've lost everything; their jobs, houses, cars, their self worth as well as their money.

About 15 million houses lie unoccupied in the US, with their previous owners, amongst them whole families living in camps without electricity, water and sanitary facilities, as written to me by a brother. In the meantime, billions are being paid to rescue single banks. This must really enrage them.

Just think of 1929: Only on 24.10.29, the Thursday before the world renowned black Friday, the markets slumped repeatedly due to congestion through panic & placed sales. By midday, 11.25 billion dollars worth of secure indices; stocks and properties had disappeared into thin air. Months after this black Friday, stocks continued downhill until they were worth nothing more. The black rider continues riding.

In the next few months, more and more people here in Germany will work only part time, until they have nothing to do and subsequently no jobs at all. People will lose all their belongings, their livelihood. Purchasing power will decrease radically and the sorrow rider - poverty, fear and panic will reign overall.

Soon, all the shelves of the supermarkets will be empty. The "punctual" delivery will no longer be available, as the necessary loans from the banks for that to take place will no longer be available. There will be deficits to the tune of billions in the container business.

It is all in the bible (Revelations 18), and that which I am passing on to you, is no doom saying but "reality";

What is to be done?

=====

It is written in the bible; lay up your treasures in heaven. Bring that to God, today, which belongs to him, your tithes in his barn (Malachi 3) that you may have to eat in the time of need. In the end times, you will only profit from your "tithes"; from which you must also live. Blessed are you, if you had made a timely investment in this wise, and prepared yourself.

God showed me, one would only have a "tenth"; of one's income left. This tenth however will be enough for you to nourish yourself and your family, as well as for your survival. It will be that tenth which you had given to God that

He will use to sustain and compensate you in the difficult times. The "tenth"; which belongs to God, and which man also gives to him, is the true crises currency, which will also serve to deflect the whole financial curse from those who took their tithing seriously. Whoever pays his tithes therefore lays up his treasures (money) in heaven in heaven (with God) and therefore lives and operates under very different laws and principles. That is the only alternative to the whole deceitful world economy, which then delivers a real and sustainable profit.

And God showed me further, that which you earn, and purchase will not amount to much externally, but when you are then at home, after you have brought it home, it will then increase ten & fold, and even more, such that you would even be able to give to others from yours.

Upon you shall come the blessings of Abraham. What is that? As Abraham entertained the 3 angels of God, he brought them water, bread and flesh. He received no special blessing from them for this good deed. Exodus 18:1-5, 33.

But then, centuries later, as his offspring were in the desert, God supernaturally supplied them with water, bread and flesh for 40 years. A similar thing happened to the widow of Zarephath. She gave God first, the prophet in this case, and her needs were supernaturally supplied throughout the time of famine in the land. (1 Kings 17:8 – 16)

To pay your tithes is the best insurance as well as the best stock of supplies you can make for yourself. In Ecclesiastes 11.1, the bible says, "cast your bread upon the waters, for thou shall find it after many days". Further the kingdom of God. Seek ye first the kingdom of God, and all you need to live or survive will be added to you. (Matthew 6.33).

Do that while you still can. Invest your life in God's kingdom, before all others collapse. The bible says redeeming the days, for the days are evil (Colossians 4:5)

There then remains the last rider

=====

A further great danger prepares its way, before which the world is still about to quake, and it is on the other side of the Euphrates;

In the book of Revelations it is stated, "and the water thereof was dried up, that the way of the kings of the east might be prepared. (Rev. 16:12, 9:14)

The western economic and financial markets dry out. Bismarck had already spoken of the "yellow danger".

The world is about to become totally dependent on China.

Very few have noticed this. Out there in the world brews a mighty, brutal and secret war. It borders on raw materials. China, India, Iran and also Russia had suggested another key currency before the G-20 summit: away with the worthless and "dried out" Dollar.

The world will still quake before China. Prior to the London summit, Peking attacked the Dollar, criticising thereby the enormous increase in inflation of the money supply in the US, making it difficult to curtail the economic crises.

The IMF will be unable to withdraw China's demand for a new reserve and key currency. China will therefore make its demands and be successful. Through this, Peking will be able to extend and enhance its global influence. Should this happen, the US Dollar loses a great part of its function as the global key currency, and as a consequence thereof, a lot of political influence. China will then try to strengthen the Yuan.

China has quadrupled its currency reserves within 4 years. While in 1981, more than half the Chinese population lived under the existence minimum, 20 years later, only 8% of them did. These people are unstoppable.

The Chinese will not only overtake us economically, but also politically, just like once the Goths of ancient Rome. Soon, the Chinese would have bought over the greatest stock of raw materials on the face of the earth and secured for itself vast reserves of these (eg. In Africa and South America).

The world and the West in particular will be dependent on China.

The political and martial conflict over the raw materials, water and the market is already pre-programmed and fully in progress.

Most people do not notice what is going on, because they are sort of naive.

What do you think makes Afghanistan, amongst others, so important to the Russians, and now the Americans and then the West?

It has to do with the bound Angel of judgement who is already at the Euphrates (Iraq) ready to prepare the way for the kings from the rising of the sun. (Make the way to the oil wells free for China, amongst others.) Rev 9:14.

The aim, right now is for him to be held off.

It is now just a matter of time....

The governments know precisely that our supply/sustenance and safety are at the verge of complete collapse. The "foolish" may want to tell me at this point that I am talking nonsense. It would only be wonderful if it turned out that they were right.

It reminds me of July 2008, when God showed me how we were about to experience a financial tsunami, and religious people in particular accused me of just causing fear and panic.

Everything the Lord showed me has now come to pass, and even worse.

I know my God. When He shows me a thing, I know it is true. For me, God has the final say. And that which the politicians and the "religious" lead us to believe, are just soap bubbles which only keep bursting one after the other. It is nothing more than a mere cover – up prior to a great storm.

Prices are sinking overall at the moment, in preparation for a massive increase. It starts with crude oil. Petrol and diesel will soon no longer be buyable. Soon, the world will find itself in a proper state of paralysis due to these crises; and what will you do then?

What you should do, you should do while you still can.

Do not let the wise of this world deceive you. God has already "caught them in their wisdom" (1 Corinthians 1:19-21). Those who wanted to repress the fear in others are paralyzed themselves, and do not even trust themselves to say the truth to their own hearing. No bank trusts the other anymore.

It is true; we live in a radically changed world. Everything passes away. Nothing is stable anymore. In this time, God says to you too, through the words in Psalm 32:8 "I will instruct thee and teach thee in the way which you should go: I will guide thee with my eye";

You need no great faith in the coming days, rather, you need faith in the great and mighty God, who can do everything, with whom nothing is impossible, who also can still the mightiest and most terrible storm in your life.

I am praying for you, that you will recognize and experience the fact that the One with you, (God) is mighty, and that He will not forsake you.

Jesus said to His church, "because thou hast kept the word of my patience, I also will keep thee from the hour of temptation, which shall come upon the entire world, to try them that dwell upon the earth". (Rev. 3:10)

The word of God can, and will strengthen you internally and motivate you in times of need, and the world wide trial. It is the true nourishment for your soul.

In the end times, you will only be as strong as you are in your spirit man. The best preparation you can make is to hurry up to save your soul.

Give your soul what it requires: Godly and spiritual encouragement. Words right out of God's mouth. (Matthew 4:4) Then it will be with your practical and daily life, exactly how it is with your soul. (3 John 2).

Listen to motivating and Holy Ghost inspired preaching and messages.

Faith only comes from such (Romans 10:10 – 17).

You can listen to such messages on our internet message site www.matutis.net (Unfortunately, most sermons are in German.)

It pays to do something for your soul.

Be very sure of this, "a spiritually under nourished soul will not survive the impending crises. Only faith in a great God can bring you through the difficulties, cares and end time storms.

In this time, one can lose everything. Everything can be taken from one.

He, who has faith in God, will however always bounce back up, for God is his help, and he knows, that God has the final say.

On the 8th of September 2008, God gave me the following message:

"My children do not be afraid because of what is happening in the world today. All the storms, all the crises, all the confusion must first of all come. I have not forgotten nor forsaken you. I will personally take care of you.

You must only stay with me and my word. You must listen to my spirit and your inner voice in you. I will speak and lead each of you individually.

Neither believe the mighty, nor the government nor the empty promises of your leaders. Believe me, says the Lord.

You must only pay exact attention to my leading.

Learn to leave off, put away things, and start off new things at the right time, as long as things go well with you. Learn to rightly and take advantage of your high points in a timely manner, and then get out.

Further says the Lord, my child, I work for you, always "JUST IN TIME";

I give you what you need "JUST IN TIME", not too early and also not too late.

My help comes to you "JUST IN TIME"; so that no one robs you of my blessings,

ascribing the glory to him or herself. I am opening the door for you „JUST IN TIME“ and bringing you to my purpose, to your true calling, to that place, where you are most effective, and can be a blessing. (See the Patriarch Joseph in Egypt / The Lord showed me: This world-wide need will be 5 more years. See Genesis 45;11)

I supply your needs „JUST IN TIME“. So, stay calm my child, and do not lose your nerves. I will not be late when you need me. I will intervene in time, and give you all that you need to live and survive, says the Lord. I will deliver you from all your afflictions „JUST IN TIME“. And be assured my child, I will not let you sink; neither will I let you be put to shame. I have already prepared and initiated everything for you deliverance. Your enemies will not laugh at and triumph over you. Rather, you will laugh at them, and they will shamefully flee from before you. Thus says the Lord who loves you above everything, my child, be assured. I will do nothing concerning you in advance or in arrears. I help you always „JUST IN TIME“, just then, when you need it. When it is the right time, when you are ripe for it and no one else can help you.

I have already prepared everything, such that you will get everything you need on time. I determine the time by myself, and no-one can hinder me from delivering everything to you „JUST IN TIME“. But you my children, will I supply with supernatural blessings „JUST IN TIME“. You will have all that you need for survival because you heeded my counsel (my advice). Your personal relationship with God will determine whether you win or lose, how you process and master the crises, how you will come out of it. Etc.

With very warm greetings.

Pastor Joh. W. Matutis
